

Course in Genome editing

1CFU

Day 1:

(2h) Giuseppe Saccone, Dept. of Biology, UNINA - How to make a great discovery: the paradigmatic history of CRISPR/Cas9

(2h) Giuseppe Saccone, Dept. of Biology, UNINA - Functional genomics in crops, pest insects, diseases vectors by Cas9 gene editing technologies

Day 2:

(2h) Caterina Missero, Dept. of Biology, UNINA - The genome editing revolution

(2h) Geppino Falco, Dept. of Biology, UNINA - Induced pluripotent stem cells: applications in tissue regeneration
