

Student of	Online Exams	Exams/lessons problem	Suggestions
First year student	I think it's not a good idea	Internet connection lost	Give us better ways (platforms, apps) to communicate online
Second year	Not done yet	Personal device or connection issues that limits the following of lesson	Send previously the slides, in this ways also if there are some connection issues all of us can follow properly
Second year	It's more difficult respect the standard exam because it is difficult to be heard and understood by prof	sound malfunctions	Improve the audio, video and the ways to communicate with this method
First year student	It is good, the platform is very accessible	Too much work to do as homeworks	Improve the coordination among professors
Second year	It's good and easy to use	Nothing problem for me	For me it's good in this way
First year student	I still did not hae any exam online but i think its good in this situation according to my colleagues who the exam on line went well with them	The program is long and lectures some times are intense	I dont have any
First year student	My experience has been very positive	Some problems with connections, but they are not Teams fault, and with the Chat	For video lessons already recorded, to talk a little bit slower because sometimes it's difficult to follow everything and some words can be missing
First year student	It's a good emergence way to cope with the situation, for us studenr does not differ that much from the face-face examimation quotidian method	Personal device issues. Difficult to make up doubts arosen at the time of video-lectures	ach professor that opt via video lectures post only the number of lectures that correspond to the timetable of the week. Not more.

Student of	Online Exams	Exams/lessons problem	Suggestions
First year student	Non ho ancora sostenuto l'esame online ,credo che sia l'unica soluzione al momento per sostenerli, teams mi sembra valida su questo aspetto	Le lezioni in diretta le preferisco ,le domande al prof.sono dirette ,invece purtroppo ho riscontrato molti problemi per quanto riguarda la comunicazione via chat sulla piattaforma teams,non ci sta modo di comunicare in maniera ordinata ,i messaggi si sovrappongono creando molta confusione.Il servizio dovrebbe essere migliorato.Le videolezioni le trovo utilissime.	Migliorare la chat della piattaforma per ottenere una comunicazione piu ordinata
Second year	I think that it is a good method	Sometimes connection problems don't allow to follow in a linear way but by recording the lessons we can rewatch them and I think that is very useful	It should be possible to do exams in this way always (very useful for students who don't live in Naples)
Second year	Online examination method is strange but we need to adapt due to this situation	The only problem is related to the internet connection. The organization and the methods are good	No suggestions
Second year	I didn't do any online esamination	No problems	No suggestions
First year student	I think that is a good solution to attend exams in order to don't loose time	No problems	No suggestions
First year student	I don't agree	The lack of Motivation	We can continue over program but without exams onlie
Second year	It's a good choice in case of emergency like the actual global situation	I did only one lesson until now	Waiting for further lectures to have more precise ideas about
