

## **Course in Physiology – Regulation of Metabolism**

(Organized by Susanna Iossa, Luisa Cigliano, Raffaella Crescenzo)

CFU (1)

Prof. Abdul G. Dulloo

Department of Medicine - Physiology, University of Fribourg (Switzerland)

Title: How dieting and weight cycling predispose to obesity.

Prof. François Haman

Faculty of Health Sciences, University of Ottawa (Canada)

Title: Brown Adipose Tissue Energy Metabolism in Humans.

Prof. Valentina Pallottini

Department of Science - University Roma Tre

Title: Prenatal exposure to Bisphenol A and lipid metabolism alterations in fetuses.

Dr Arianna Mazzoli

Department of Biology - University of Naples Federico II

Title: Metabolic changes induced by a high fructose diet: are they reversible?

Dr Antonio Dario Troise

ISPAAM-CNR, Napoli

Title: Nutritional and functional aspects of the Maillard reaction
