

WHY TO
ENROLL

Because Biology is the science that studies life, from its origin to its evolution in all the living organisms.

Because the study of living organisms is multidisciplinary and will allow you to acquire solid basic knowledge in the different fields of biology.

Because experimental work intrigues and fascinates you. Furthermore, the study of Biology will supply you with the skills necessary to tackle any kind of biological problems through experimental approaches.

Because understanding the biological and molecular mechanisms that take place in all the living organism will let you to take part to the current technological and scientific revolution of our society.

BACHELOR'S DEGREE BIOLOGY

2022|23

EDUCATIONAL OBJECTIVES

The educational objectives of the Bachelor degree in Biology is to endow graduates with an in-depth theoretical knowledge in the various fields of biological sciences as well as with the ability to apply the scientific method of investigation.

In addition to the basic and characterizing teaching courses, in the third year the students can choose between:

2 OPTIONAL courses and 2 ELECTIVE courses within a list of available courses.

The students have the chance to build up their own personalized path choosing which fields of biology they wish to deepen, thus developing specific skills.

STUDY PLAN

Students can choose to follow the teaching courses in one of the two locations, either Monte Sant'Angelo (MSA) or Historic Centre (CS)

FIRST YEAR

General and inorganic chemistry and laboratory	8
Mathematics and laboratory	10
Cytology and histology and laboratory	10
Botany and laboratory	10
Physics and elements of computer science	10
Language laboratory (English)	10

SECOND YEAR

Organic chemistry and laboratory	8
Zoology and laboratory	10
Ecology and laboratory	10
Biochemistry and laboratory	10
Molecular biology and laboratory	10
Developmental biology and animal phylogeny and laboratory	10

THIRD YEAR

Microbiology and laboratory	10
Physiology and laboratory	10
Genetics and laboratory	10
Plant physiology and laboratory	10
Optional course	6
Optional course	6
Course chosen by the student	6
Course chosen by the student	6
Internship/Stage	6
Thesis	4

OPTIONAL COURSE

Bio-ecological field

Principles of plant systematics, Zoology of vertebrate, Comparative pathology, Applied ecology

Bio-technological field

Microbial biotechnology, Genetic engineering

Bio-health field

Food hygiene and HACCP, Institution of general pathology, Fundamentals of human physiology, Fundamentals of anatomy of human apparatus

Bio-molecular field

Biochemical and laboratory methodologies, Bioinformatics application in molecular biology, Cell differentiation methodologies

COURSES CHOSEN BY THE STUDENT

This list includes all the courses offered by Department of Biology and Didactic Area of Science of the Federico II University

CAREER AND JOB OPPORTUNITIES

Students graduated in Biology will be able to enroll in the National Register of Biologists as a junior Biologist and carry out professional technical activities in the following areas:

- cytological, microbiological, metabolic, biochemical, genetic and biodiversity analyses;
- creation and management of databases in the biological field;
- assessment of the biotic impact on the conservation of cultural heritage;
- environmental monitoring (water, air, soil, food);
- quality control procedures in all biological areas;
- medical-scientific and pharmaceutical information; • training and scientific dissemination in publishing and pharmacology.

WHERE WE ARE

The Degree Course takes place with the same training path and teaching, in the two locations:

- Monte Sant'Angelo (MSA) Via Cinthia
- Historic Center (CS) Via Mezzocannone 8 and 16

HOW YOU CAN REACH US

Historic center

It is easily reachable from the Central Station (Piazza Garibaldi):

by bus: R2 (Piazza Borsa stop);

by underground: (University Station);

on foot: (about 25 min.), following Corso Umberto I.

Monte Sant'Angelo

By car: exit of the Fuorigrotta ring road.

Rail lines: Metro Line 2 (Campi Flegrei station);

Circumflegrea (Mostra station)

Bus lines: Piazzale Tecchio (Fuorigrotta) - MSA: 615 -180 - R6; Piazza Leonardo (Vomero) – MSA: C33. There are also private bus companies providing connections from and to the main Cities of Campania region

SERVICES

ADISU point, Sinapsi Center, Canteens, Bar, Copy service, ATM.

ADMISSION REQUIREMENTS

The number of students for the Bachelor degree in Biology is limited.

Admission test is mandatory:

- Information on the number of available places, which is calculated annually, can be found on the website of the Course of Studies in Biology and on the website of the Polytechnic School and Basic Sciences:

<http://www.dipartimentodibiologia.unina.it/corsi-di-laurea/laurea-triennale-in-biologia/>

<http://www.scuolapsb.unina.it/index.php/studiare-al-napoli/admission-to-courses>

- Announcement and test registration deadlines are published in July on University website (www.unina.it)
- Characteristics of the test and training site are available on the page www.cisiaonline.it in the CISIA-SCIENZE section.
