

DEPARTMENT OF BIOLOGY  
UNIVERSITY OF NAPLES FEDERICO II  
GRADUATE SCHOOL IN BIOLOGY

**Course in Cell biology** (Organized by Ivan Conte and Caterina Missero) (2 CFU)  
*Room BIO6 from 16:00 to 18:00*

Nov 10 2022 - Daniela Di Girolamo (Dept of Biology, UNINA) *Dynamics of stem cell differentiation in mouse models*

Nov 17 2022 - Monica Dentice (Medical school, UNINA): *Stem cell function and tissue regeneration.*

Dec 7 2022 - Antonio Feliciello (Medical School, UNINA): *Coupling cAMP to the Ubiquitin Proteasome Pathway in development and cancer.*

Jan 12 2023 - Gabriella Minchiotti (CNR-IGB, Napoli): *Extrinsic control of stem cell metastability: learning from development and beyond*

Jan 16 2023 – Mirko Cortese (Telethon Institute of Genetics and Medicine, Pozzuoli): *Infection and pathogenesis of SARS-CoV2*

Jan 25 2023 – Gennaro Napolitano (Medical School, UNINA and Telethon Institute of Genetics and Medicine, Pozzuoli): *Metabolic signaling in cancer*

Feb 1 2023 – Alessia Indrieri (Telethon Institute of Genetics and Medicine, Pozzuoli): *Mitochondria function in neurodegenerative disorders*

Feb 9 2023 - Antonia Feola (Dept of Biology, UNINA): *Stem cells in GMP advanced cell therapy: a Pharma perspective*
