

**Elenco dei Controrelatori assegnati per la Seduta di Laurea Magistrale in
Marine Biology and Aquaculture del mese di Settembre 2025**

MATRICOLA	CANDIDATO	TITOLO TESI	RELATORE	CONTRORELATORE
P59000065	Ilaria Cuomo	Ecological relationships between microalgae and benthic crustaceans and effects of allochemicals	Prof. Valerio Zupo	Prof. Erika Fabbriizzi
P59000068	Fulvia Guida	Chemical ecology of the invasive coral <i>Tubastraea</i> spp. and its infochemicals involved in its expansion, including chemotactic activities and gene activation	Prof. Valerio Zupo	Prof. Chiara Motta
P59000056	Simone Gioia	Effects of microplastics on marine invertebrates investigated by means of eco-physiological and molecular approaches	Prof. Valerio Zupo	Prof. Gianluca Polese
P59000058	Alfonso Romano	Geomorphological characterization and associated benthic communities of deep-sea coral mounds in the central Mediterranean	Prof.ssa Erika Fabbriizzi	Prof. Patrizia Stipcich
P59000049	Alice Palumbo	Management of marine litter in deep sea environment: development of a standardized methodology	Prof.ssa Erika Fabbriizzi	Prof. Giovanni Libralato
