

## **Course in Systems Biology**

2CFU – April-May 2022

Organized by Giovanni Scala

The course aims at providing the students with the basics approaches and principles of Systems Biology spanning from multi-omics data integration to their complex functional characterization. The proposed topics will be accompanied by use cases from real world applications and practical sessions of data analysis.

- Day 1 (3h) 20 April Giovanni Scala (10:00-13:00) (Dept. of Biology, UNINA)  
**Introduction to Systems Biology and Omics technologies**
- Day 2 (3h) 22 April (10:00-13:00) Dario Greco & Antonio Federico (Dario Greco group, Faculty of Medicine and Life sciences, Tampere University, Finland)  
**Preprocessing and analysis of omics data in Toxicogenomics with Eutopia**
- Day 3 (2h) 24 April (14:00 16:00) April Francesco Napolitano (Computational Bioscience Research Center, KAUST, Saudi Arabia).  
**Systems Biology approaches for drug discovery and repositioning.**
- Day 4 (3h) 27 April (10:00-13:00) Giovanni Scala (Dept. of Biology, UNINA)  
**Integrative analyses of multi-omics data**
- Day 5 (2h) 29 (10:00-12:00) Michele Ceccarelli (DIETI, UNINA)  
**Large scale integrative bioinformatics and systems biology in cancer genomics**
- Day 6 (3h) 4 May (10:00-13:00) Giovanni Scala (Dept. of Biology, UNINA)  
**Functional profiling of Mechanism of Actions in multiple experiments**
