## EMERGENCY SIMULATION EXERCISE

on **15/12/2025**

at **11:00 AM**

*All those present are required to participate in the Emergency Simulation by following the instructions that will be provided by the teachers and emergency management staff*

### IF YOU ARE INSIDE THE BUILDING

Do not rush out of the building unless you are on the ground floor and the front door does not give direct access to an open space

Don't use the stairs

Don't use the elevator

Do not turn on the light, do not use lighters or open flames

If you are inside an elevator, stop on the first possible floor and exit immediately

Move away from glass, heavy furniture, shelving, suspended electrical systems, or in any case from objects that can fall.

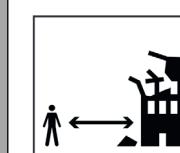

Seek shelter under a table, in a doorway, inserted into a load-bearing wall or under a beam, in the corner between two walls

Wait for the shock to end

All the teaching and technical staff present in the classrooms, in the libraries and reading rooms, in the teaching and research laboratories, maintain control of the students and users, inviting them to remain calm and respect the behaviors described above.

### IF YOU ARE OUTSIDE THE BUILDING

Move away from buildings, embankments, power lines, enclosure walls, construction sites, ledges, signs, balconies.

*At the end of the simulation all students and workers have to return to their classrooms and offices respectively*
